```

The code is :

```python
import requests
from urllib.request import Request, urlopen
from bs4 import BeautifulSoup
req=Request("https://directory.web.actf.co/")
html_page=urlopen(req)
soup=BeautifulSoup(html_page,"lxml")
links=[]
for link in soup.findAll('a'):
    links.append(link.get('href'))

print(links)

url_base = "https://directory.web.actf.co/"
for i in range(5000):
    link = url_base + str(i) + ".html"
    response = requests.get(link)
    contents = response.content
    print(i, contents)
~
~
~
```
